

ENTRY LEVEL MULTI-STATION

P-4400

The Pony Press Series offers great value at an attractive price point by providing many of the same features as more expensive presses. This series has multiple configurations to choose from including multi-color and multi-station screen printing press set ups. The Pony series is ideal for high production rates allowing utilization of one person to load & unload shirts while another prints. These presses are perfect for flash curing between colors and/or under base printing white onto dark shirts. Most Models are available in bench top versions or floor models with the capability to be upgraded to grow as you expand your operation.
